

Adithya Sudhindra

Los Angeles, CA | (213) 301-4085 | asudhind@usc.edu | [linkedin.com/in/adithya-sudhindra](https://www.linkedin.com/in/adithya-sudhindra) | github.com/Adithya2441

Education

University of Southern California

Jan 2025 – Dec 2026

Master of Science in Computer Science, GPA: 3.74/4.0

Los Angeles, CA

- Coursework: Analysis of Algorithms, Operating Systems, Distributed Systems, Information Retrieval and Web Search Engines, Machine Learning for Data Science, Applied NLP, Foundations of AI

JSS Academy of Technical Education

Aug 2019 – Jun 2023

Bachelor of Engineering in Computer Science, CGPA: 9.24/10.0

Bengaluru, India

- Coursework: Data Structures, Web Technology, Mobile Application Development, Database Management Systems, Big Data Analytics, NoSQL Database, Digital Image Processing, Data Mining and Data Warehousing

Technical Skills

Languages: Python, Java, C, C++, SQL, JavaScript, Kotlin, R

Frameworks & Tools: AWS, Django, Flask, Streamlit, Docker, GCP, Java EE, Maven, Git, Jira, Postman, React, Node.js

ML & AI Libraries: TensorFlow, PyTorch, Scikit-learn, LangChain, OpenCV, NumPy, Pandas, Matplotlib, Seaborn, Statsmodels

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Hadoop, VectorDB

Testing & Methodologies: JUnit, CI/CD, Agile Scrum, TDD

Areas of Expertise: Full-Stack Development, Applied Machine Learning, Computer Vision, Generative AI, RAG, Cloud-Native Microservices, Distributed Systems, MCP

Experience

Northern Lights (Presage)

Jan 2026 – Present

Machine Learning Engineer Intern

Los Angeles, CA

- Building machine learning models using Google's Unsplash dataset along with its metadata (**125GB+**), leveraging **AWS S3** for storage and **AWS SageMaker** for training and experimentation.
- Developing an **agentic AI model** using **Model Context Protocol (MCP)** and **AWS services** for a YouTube Shorts dataset to enable autonomous task execution.

Mercedes-Benz Research and Development India

Jul 2023 – Dec 2024

Consultant (Software Developer)

Bengaluru, India

- Designed, implemented, and deployed **15+ scalable full-stack features** for a distributed Java enterprise system using **JDBC, EJB, and Primefaces**.
- Delivered sprint goals **25% ahead of schedule** by optimizing Agile workflows and team coordination.
- Engineered an **LLM-powered documentation system** using GPT-4o, Ada API, and Streamlit; increased help-file engagement by **30%**.
- Modernized a **17-year legacy codebase** via modular architecture, **CI/CD**, and **JUnit testing**, ensuring zero-downtime releases.

Saigeware Technologies Pvt Ltd

Feb 2023 – Apr 2023

AI and Data Science Intern

Bengaluru, India

- Performed **VAE-based feature extraction** on clinical image data (800+ patients) to learn robust latent representations.
- Built an **end-to-end ML pipeline** on multimodal healthcare data using a Random Forest + CNN ensemble, improving accuracy from **55% → 75%**.
- Engineered **data extraction and visualization pipelines** on a **1.2B+ record US healthcare dataset**, improving reporting efficiency by 30%.
- Designed and validated **stroke-risk prediction models** for scalable early-intervention analytics.

Projects

Operating System Development | C, Linux, x86 Assembly

- Implemented **process scheduling, memory management, and system calls**; achieved fault-tolerant performance through low-level Linux debugging.

AI-Based Image Generation | Stable Diffusion, CLIP

- Reproduced Stable Diffusion using **80K+ images**; optimized CLIP-guided pipeline, improving coherence by 25% and achieving **81% artist imitation accuracy**.

Restaurant Reservation System | Django, PostgreSQL

- Developed a **scalable full-stack web app** with authentication, CRUD APIs, and real-time table availability using a modular backend architecture.

Achievements

- Placed **5th** in company-wide **AWS DeepRacer** competition, applying reinforcement learning for autonomous driving optimization.
- Developed an **LLM-based multimodal Streamlit chatbot** at Mercedes-Benz R&D using GPT-4o and Ada API; **secured 2nd place** in an internal hackathon.
- Selected among a cohort of **300** students in USC's **Machine Learning for Data Science** course for a competitive internship at **Northern Lights (Presage)**.
